

### PREPARING FOR YOUR BSSW- GENERALIST FIELD PRACTICUM

The BSSW field placement is oriented toward the generalist practice perspective. Generalist practice utilizes a broad spectrum of skills to intervene with individuals, families, groups, organizations, and communities. The focus is on building skills that are transferrable to different populations as opposed to specialty/clinical skills that are developed at the MSW level. Generalist interventions are guided by:

- ✓ Person-In-Environment Approach
- ✓ Social work values and ethics
- ✓ Strength-based philosophy
- ✓ Respect for Diversity
- ✓ Client self-determination
